

NoviEdge Coaching Cohorts

Where clarity, community, and coaching come together

NoviEdge Coaching Cohorts give leaders two things they rarely get together: a **coach** and a **peer group**. Most choose one or the other — here, they get both, and that changes everything.

The peer circle offers honest insight and real-world wisdom. The coach helps make sense of it, draws out deeper learning, and guides leaders toward clear decisions and follow-through.

When coaching and peer insight meet, growth accelerates and feels natural.

THE INDIVIDUAL COACHING CALL

A focused, one-hour conversation designed to move a leader forward. Through timely, curious questions, the coach helps them explore their most important challenge and uncover their own wisdom and options.

Presence Undivided attention and support.

Perspective New clarity and fresh possibilities.

Progress Every call ends with a clear, actionable next step.

THE GROUP COHORT CALL

This is where the magic happens: four leaders, two hours, one meaningful challenge each. They share honestly while the group offers sharp wisdom, questions, and encouragement.

Then the coach steps in, modeling a real coaching conversation as clarity forms and decisions take shape. Leaders learn from every moment- whether being coached or observing.

It's energizing, practical, and leaders leave with insight, tools, and confidence.

HOW IT WORKS

Two engagements per month for six months:

- Group Cohort Call- two hours with 30 minutes of focused attention, input, and coaching for each participant
- Individual Coaching Call- one hour
- Engagements take place bi-weekly

**READY TO GROW IN CLARITY,
CONFIDENCE AND MOMENTUM?**
